PROJECTS

E-commerce Platform – Next.js, Stripe, Prisma, Clerk
- Built a full-stack e-commerce app with separate dashboard and storefront Next.js projects.

  ecommerce-admin-horizon
  ecommerce-store-horizon

- Implemented API-driven architecture to manage products and display them in the store
- Integrated Stripe for secure payment processing and order handling

Messaging App – Next.js, Pusher, NextAuth
- Developed a real-time chat app with Pusher for instant messaging and NextAuth for authentication.
- Built responsive chat UI with user status, active conversations, and message timestamps.

Team Chat Application – Next.js, Livekit, React Query, Socket.io
- Real-time Team Chat App inspired by Discord with servers, channels and messaging with video and audio chats using Livekit.
- Used React Query for paginated message fetching with scrolling and caching.
- Integrated Socket.io for real-time message updates.
